**Subject: SRB Technologies (Canada) Inc. Final Report- SRBT Contingency Plan
Activation of September 25, 2015**

Dear Mr. Levesque,

Canadian Nuclear Safety Commission (CNSC) staff have reviewed SRB's Final Report- SRBT Contingency Plan Activation of September 25, 2015 [1]. CNSC staff accept that SRB's response to the incident was appropriate, and that SRB's assessment of the event was complete and satisfactory [2].

CNSC staff make one recommendation to SRB and that is to ensure the smoke detector involved in the incident be tested to verify it's continued functionality.

If you have any comments or questions on this letter please do not hesitate to contact me at 613-943-9445.

Yours truly,

Jennifer Campbell
Project Officer
Nuclear Processing Facilities Division
